

Denny High School Maths Camp

By attending Maths Camp you could:

- know better your areas to improve for the final exam
- be more confident in areas you were previously unsure of
- improve your prelim grade to final exam
- spend time with a teacher in a small tutor group and feel more confident about the exam asking and discussing any areas you are not sure of
- ultimately improve your exam result in Higher and Advanced Higher in the 2017 exam

Dates

- Friday 24th February 2017 - Sunday 26th

Best time- after prelims and before final exams- this will re-energise you and help you to re-focus!!!

Who would be involved?

- Higher and Advanced Higher Maths pupils, including Advanced Higher Statistics pupils (approx 40 pupils)
- At least 8 members of staff so you would be in small groups no more than 6 pupils and therefore this would be very worthwhile

Where?

<http://www.field-studies-council.org/centres/scotland/kindrogan.aspx>

We hope to keep costs to a minimum

- Hopefully £100 - £120
- This works out at £20 per month for pupils

Our Draft Plan:
